Career Profile

Motivated and self-driven professional with practical experience in designing, coding, and optimizing web applications using ASP.NET, C#, HTML, CSS, JavaScript, and SQL Server. Strong analytical mindset and attention to detail with a proven ability to adapt quickly to new challenges and technologies, ensuring high-quality and maintainable solutions.

Technical Skills

- **Frontend :** HTML5, CSS3, JavaScript (ES6+)
- **Backend :** C#, REST APIs, Microservices
- **Database :** SQL Server, MySQL, Database Design, Query Optimization
- **Tools :** Visual Studio Code, Postman

Work Experience

Assistant Systems Engineer (Full Time) - MPonline Limited, Bhopal

June 2022 – Present

- Designed and developed responsive, user-friendly websites and web applications using HTML, CSS, JavaScript, and frameworks such as ASP.NET.
- Collaborated with cross-functional teams to gather requirements, define project scope, and implement features aligned with business objectives.
- Integrated RESTful APIs to enable seamless data communication between front-end and back-end systems, enhancing application functionality.
- Utilized AJAX to perform asynchronous data operations, improving user experience by reducing page reloads and load times.
- Optimized website performance through efficient coding practices, image compression, and cross-browser compatibility enhancements.
- Maintained, debugged, and enhanced existing websites to improve usability, resolve issues, and incorporate user feedback.
- Wrote clean, modular, and maintainable code, ensuring long-term scalability and ease of future enhancements.
- Conducted thorough testing and debugging to identify and resolve performance and functionality issues efficiently.
- Worked closely with senior developers to adopt industry best practices and continuously expand technical expertise.
- Achieved faster load times by optimizing front-end assets and refining server-side processes.
- Delivered high-quality, deadline-driven projects that met or exceeded client expectations.
- Developed and maintained SSRS reports, providing stakeholders with data-driven insights through customized visualizations and reporting solutions.

Internship - AIM POINT INFOSYSTEM Pvt Limited, Bhopal

Sep 2021 - Nov 2021

- Developed desktop applications using Python with Tkinter for building interactive GUI components.
- Implemented CRUD operations by integrating MySQL databases with Python.
- Focused on performance optimization and error handling to ensure smooth application functionality.
- Designed user-friendly interfaces to simplify data input, search, and management tasks.
- Applied object-oriented programming (OOP) principles to create clean, modular, and reusable code.
- Gained practical experience in connecting GUI elements with backend logic and database transactions.

Key Achievements

- Successfully developed and deployed multiple web applications using ASP.NET and C#, improving business process efficiency and user satisfaction.
- Designed and implemented SSRS reports for real-time business insights and performance tracking.
- Collaborated with cross-functional teams to deliver projects within deadlines and improve code quality through clean architecture and reusable components.
- Enhanced application UI/UX using HTML, CSS, and JavaScript, leading to a better end-user experience.
- Provided production support and resolved critical issues, ensuring 99% application uptime.
- Recognized for proactive problem-solving and consistent contribution to improving system performance and maintainability.

Projects

Online Movie Streaming Application

Technologies: Laravel (PHP), MySQL, HTML, CSS, JavaScript

- Developed a web-based movie streaming platform using the Laravel framework that enables users to watch free movies and web series seamlessly.
- Implemented user authentication and authorization to ensure secure access and personalized viewing experiences.
- Designed and developed content categorization, advanced search, and filtering features to improve content discoverability.
- Integrated video streaming functionality for smooth playback with minimal buffering.
- Created a responsive and intuitive user interface optimized for both desktop and mobile devices.
- Focused on performance optimization, database efficiency, and scalable architecture to handle multiple concurrent users effectively.

Student Management System

Technologies: Python, Tkinter, MySQL

- Developed a desktop-based Student Management System using Python and Tkinter to automate and streamline the management of student records.
- Designed an intuitive graphical user interface (GUI) that allows users to efficiently perform data entry, search, update, and delete operations.
- Integrated MySQL database connectivity to enable secure storage and retrieval of student data.
- Implemented input validation and error handling to ensure data accuracy and system reliability.
- Focused on modular programming and OOP principles to enhance code maintainability and reusability.
- Significantly reduced manual administrative tasks by replacing paper-based record management with a fully automated system.
- Ensured a user-friendly experience suitable for educational institutions and small-scale academic environments.

Education

- **Master of Computer Science(9.6 CGPA)**
Lakshmi Narain College of Technology (LNCT), Bhopal **2020 - 2022**
- **Bachelor of Science (62%)**
Govt. Geetanjali Girls PG Autonomous College, Bhopal **2017 - 2020**
